WHO ARE WE?

CANK Electrical Engineers Pvt Ltd t/a Cank Electrical and Electronic Engineers has been providing electronic engineering services to the Zimbabwean community since 2014. We are made up of young vibrant engineers dedicated to provide quality services in competitive, positive, close controlled and professional manner. As CANK, we are so proficient in the execution of projects. Our field of expertise covers all types of electrical and electronic building services in projects as diverse as showrooms, banks, commercial and retail complexes, service stations, housing, sporting facilities and many more. Our contract management knowledge ensures that projects are undertaken according to plan, within budget and with a cooperative attitude.

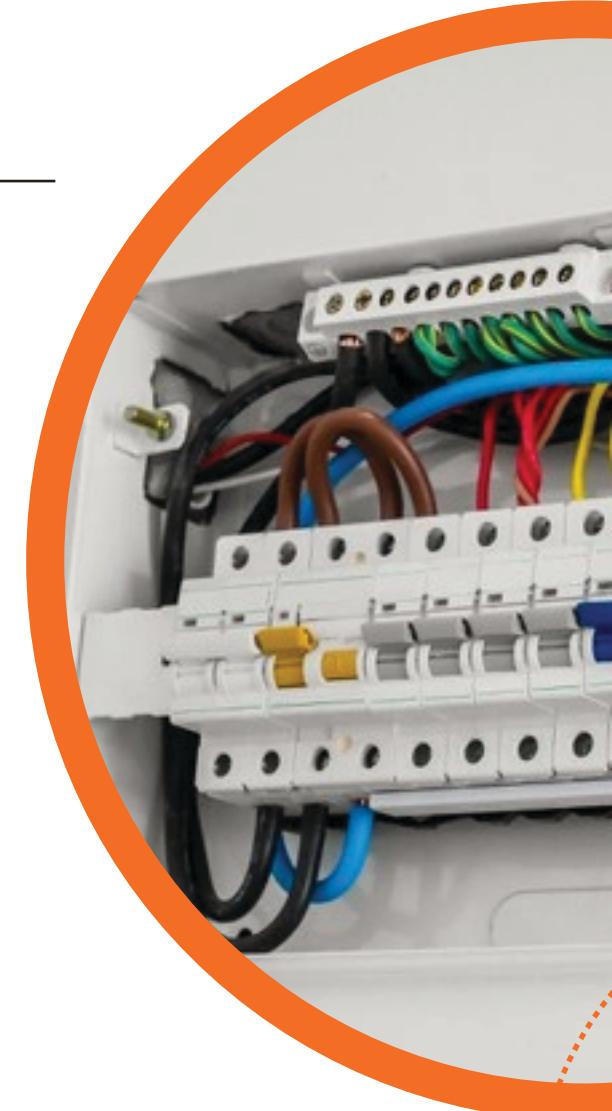

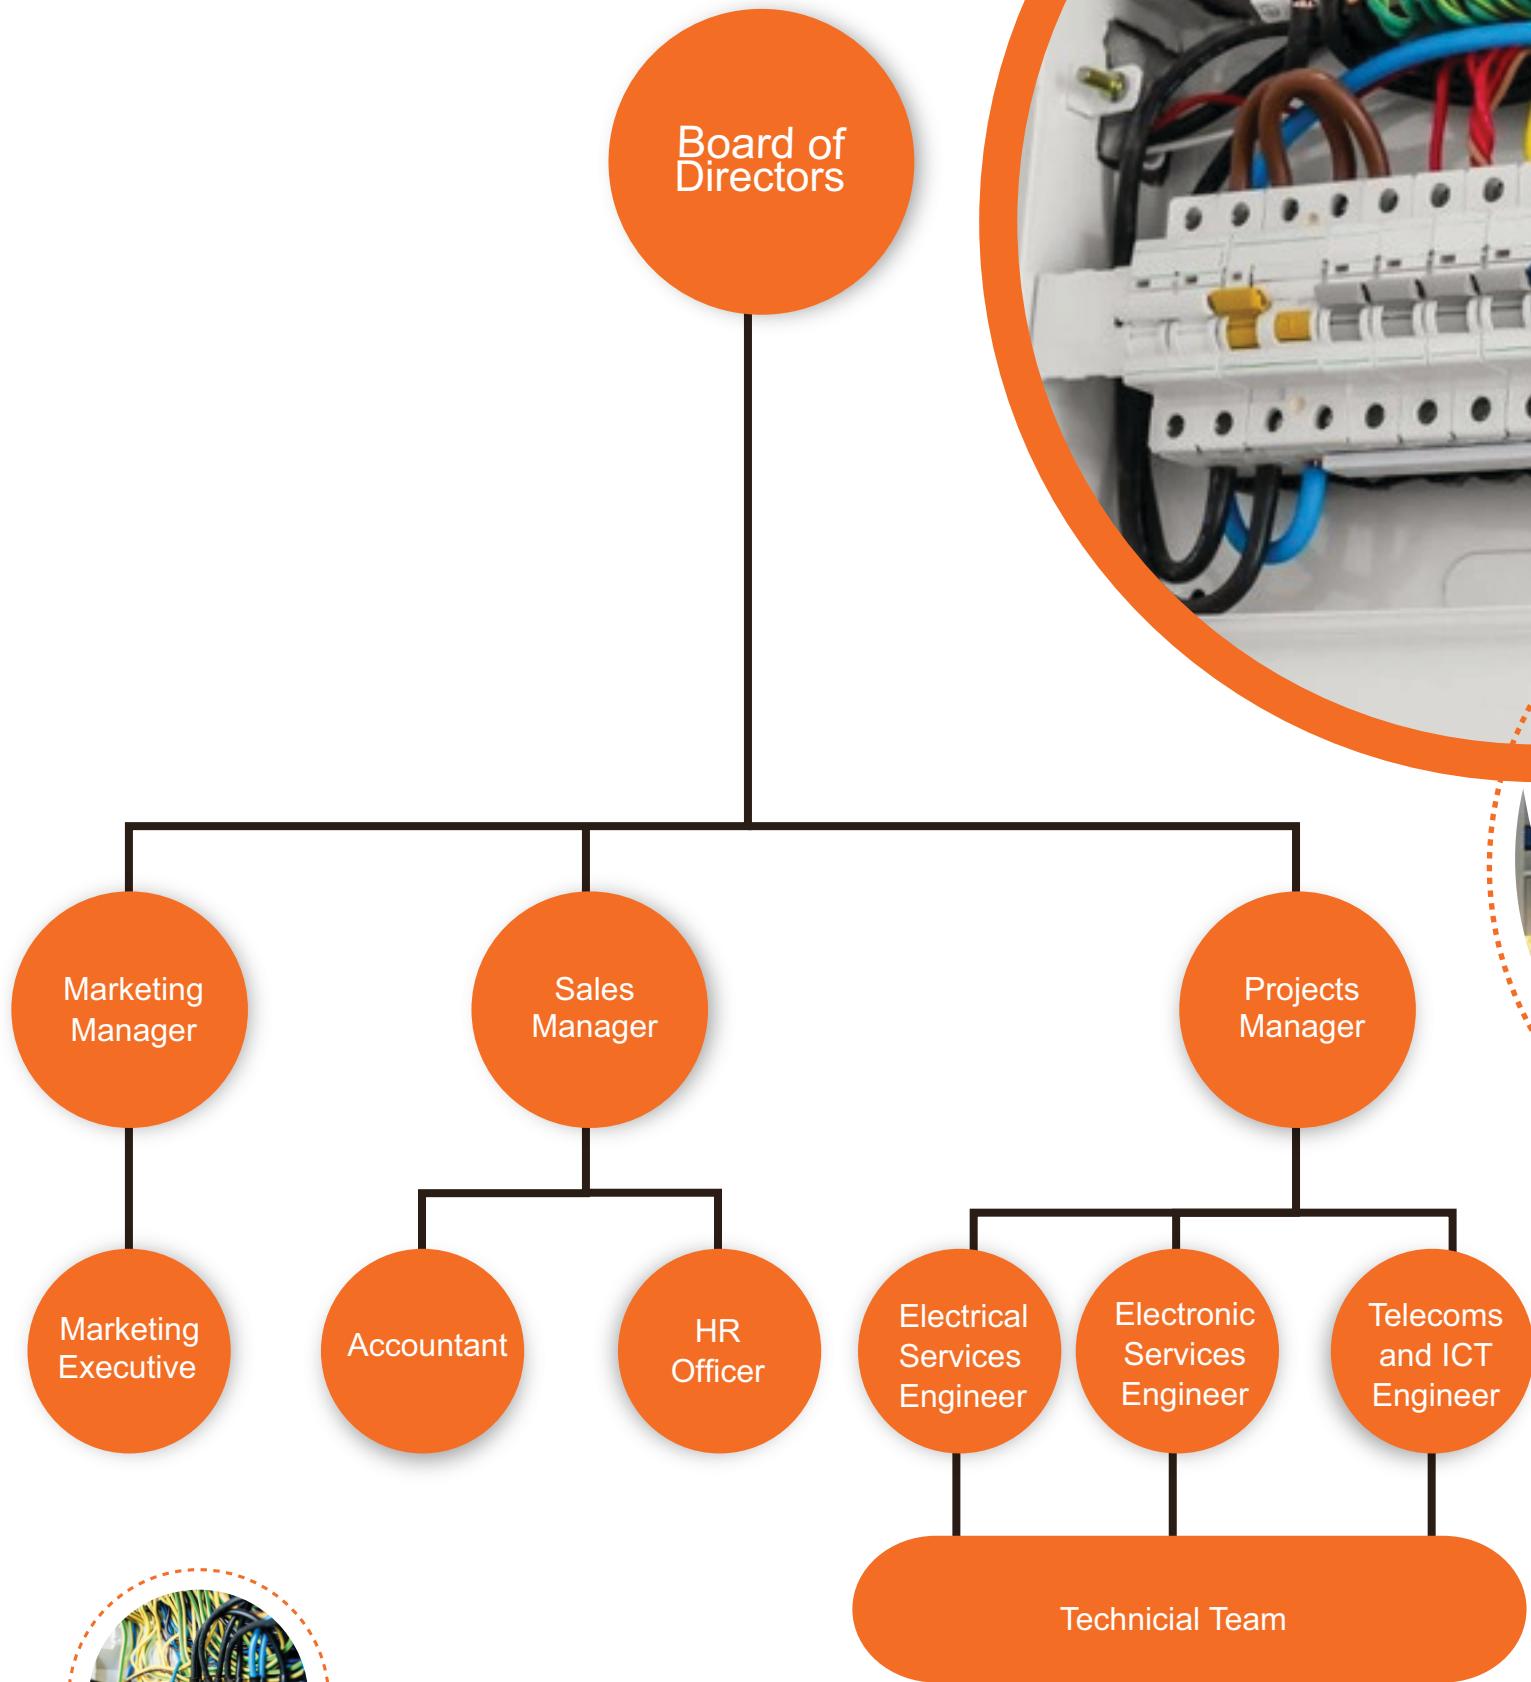

We intend to make working with CANK an easy process and we know this can only be done with good communication skills and understanding of the correct use of contract management tools: reporting, evaluation and a flexible imaginative approach to solving problems.

In 2020 CANK Electrical & Electronic Engineers was restructured to form four subsidiaries namely Smart World Technologies, Solar Links Zimbabwe, Black Stallion Security Services and Electroquip Manufacturers and Suppliers. Ensuring each subsidiary concentrates in a particular field and we are glad with years of experience our complementary styles of experience has made us to be the best in the country.

ORGANOGRAM

Our Business

Our Business

Our core business at CANK is providing high quality ICT, Electrical and Electronic engineering contracting services. The firm has a versatile team of professionals with many years of experience in this field of business.
